

NEOGAME CROWDSALE TERMS & CONDITIONS

Key Principles

1. The TKT tokens are not intended to constitute securities in any jurisdiction. The Neogame Whitepaper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer of securities or a solicitation for investment in securities in any jurisdiction. The information in the Whitepaper and Neogame website <https://neogame.io/> is purposed to explain the idea in general, and is subject to change or update without notice and should not be construed as a commitment by Neogame.
2. Ticket tokens (TKT) are utility tokens that has a function of a lottery ticket. By transferring Ether (ETH) to the crowdsale Smart Contract, the Purchaser understands that the Purchaser buys tickets for the future Neogame lottery, as described in the Whitepaper and Website.
3. Ticket Tokens are not an investment asset and no document issued on behalf of Neogame can be relied on as a prospectus or investment memorandum or professional advice to buy tokens or make any investment decision regarding Neogame project. The information set forth in the Whitepaper and the website may not be exhaustive and does not imply any elements of a contractual relationship.
4. Any Purchaser of Ticket Tokens will take sole responsibility for any restrictions and risks associated with participation in crowdsales, and should follow regulations of his/her jurisdiction on this matter.
5. Neogame is a decentralized project that is not registered in any jurisdiction, and not subject to any local corporate laws or regulations which are designed to protect investors. 7. No promises of future performance or value are made with respect to Ticket Tokens, and no guarantee that TKT will hold any particular value. Unless prospective participants fully understand and accept the nature of Neogame's project and the potential risks inherent in the tokens, they should not participate in the Ticket Token crowdsale.
8. The Purchaser understands and accepts that while the Neogame team, assigned to this task will make reasonable efforts to develop and complete Neogame's projects as described in product roadmap section of the Whitepaper, it is possible that such development may become useless and/or valueless due to technical, commercial, regulatory or any other reasons. The Purchaser therefore understands and accepts that the transfer of ETH to the crowdsale Smart Contract and the creation of TKT Tokens carry significant financial, regulatory and/or reputational risks.
9. By transferring ETH to the Smart Contract System, the Purchaser expressly agrees to all the terms and conditions set forth in the crowdsale Smart Contract code existing on the Ethereum blockchain.
